**management information systems**  
2021-Present

### LANGUAGES

English

#### Reference

**Murat Kale** software developer

530 511 71 27

### PROFILE

My industry experience since 2021 is recognized, especially for my development in the .NET Core domain. Additionally, I have improved my skills in React Native, thereby enhancing my knowledge in developing both web-based and mobile applications. Throughout this period, the experiences I've gained, combined with my strong analytical thinking and problem-solving skills, have allowed me to play an effective role in projects. A fundamental principle for me is a commitment to continuous learning and adapting to evolving technologies. I took initiative to resolve performance issues in a web application. Following a detailed analysis, I optimized database queries on the server side and reduced resources on the client side, significantly improving application performance. This experience helped me further enhance my technical skills.

### WORK EXPERIENCE

#### Full Stack Developer

Hybrid Rocks 05/2022-Present

- Private bank integrations
- Payment integration systems
- Custom systems for ERP and CRM for customer integrations
- Machine risk analysis and ISO standard integrations
- Marketplace integration
- Integrations for e-commerce systems

#### Software Developer Intern

Wissen Akademie - BAU 10/2021 - 03/2022

- I received training on .net core and JavaScript technologies within the scope of the full stack developer course.
- The duration of the training is 800 hours.

#### Software Developer Intern

Bilsoft software 07/2021 - 09/2021

- While working as an intern at Bilsoft, I gained a wealth of new knowledge and set new goals for myself.
- I was involved in numerous website projects and conducted SEO activities for websites.
